CAREER OBJECTIVE

Information Technology student skilled in SQL, AWS, and Java, with experience in building real-world applications and seeking software development opportunities in reputed and innovative companies.

EDUCATION

B.Tech (IT) – SV College of Engineering, Tirupati (2023–2027), CGPA: 9.04/10

Intermediate – Narayana Junior College, Nellore (2021–2023), CGPA: 8.81/10

SSC – Vikas Vidya Vihar EM School (2021), 589/600

SKILLS

Languages: Java, C, SQL, DSA

Database: MySQL

Core CS: DBMS

Cloud Platform: AWS

Web Technologies: HTML, CSS

Tools: GitHub, VS Code

Coding Platforms: Leetcode, HackerRank

Projects

E-Commerce Database Management System

GitHub

Designed and implemented an e-commerce database system for managing customers, products, orders, and payments. Created relational schemas using primary and foreign key constraints and developed SQL queries, views, stored procedures, and triggers for efficient database operations and reporting.

Technologies Used: MySQL, SQL, Views, Stored Procedures, Triggers

AWS EC2 Web Server Deployment

GitHub

Deployed and hosted a web server on Amazon EC2 cloud infrastructure. Configured SSH access, security groups, and Linux server settings while gaining hands-on experience in cloud deployment and server administration.

Technologies Used: AWS EC2, Linux, SSH, Security Groups

AWS S3 Security and Lifecycle Management

GitHub

Configured secure Amazon S3 buckets using IAM-based access controls and implemented lifecycle policies to automate storage transitions and optimize costs. Applied cloud security best practices including versioning and permission management.

Technologies Used: AWS S3, IAM, Lifecycle Policies, Cloud Security

Technical Highlights

- Solved 100+ SQL problems and practiced Data Structures and Algorithms on coding platforms.
- Participated in college hackathons and collaborative AWS cloud projects.

Certifications

Infosys Springboard – Introduction to Java

Infosys Springboard – Introduction to Python

Inspire AI – AWS

Deloitte Australia – data analytics job simulation

Cisco Networking Academy – Introduction to Cybersecurity
